

Temple Guiting VAS report 4th January 2026

The three VAS monitors have been visually inspected and as of today's date all are in working order. It should be noted that the performance of the batteries in the unit near the TG School have dropped off in the colder weather, meaning they need to be recharged more frequently, and the monitor may therefore be 'off-line' while batteries are being charged.

Period 12th November 2025 to 4th January 2026

<u>Location, The Plough, Ford.</u>	Incoming traffic	Outgoing Traffic
